
Boone's Gentle Current

A Tribute Song

Intro - ethereal piano, soft pads

Verse 1

From river banks, where spirits soared
A wagging tail, a love profound
Our daily walks, forever stored
A comfort in each gentle sound
Then quiet nights, upon the floor
Before we slept, safe and sound

Chorus

Oh, Boone, my heart still feels you near
Fifteen years, a precious span
You chased away my every fear
My loyal, loving, faithful man
Through every season, bright and clear
The best friend I could ever plan

Verse 2

Beside my chair, the studio hummed
At the radio, you'd always stay
With my best friend, those weekends came
You brightened every single day
No matter where our spirits roamed
You walked beside me on the way

Chorus

Oh, Boone, my heart still feels you near
Fifteen years, a precious span
You chased away my every fear
My loyal, loving, faithful man
Through every season, bright and clear
The best friend I could ever plan

Verse 3

Boone's Gentle Current (continued)

The lamplit room, a quiet space
Where words unsaid, we understood
I saw the love within your face
A final moment, strong and good
We shared a gaze, as stars above
A quiet promise, sealed with love

Chorus

Oh, Boone, my heart still feels you near
Fifteen years, a precious span
You chased away my every fear
My loyal, loving, faithful man
Through every season, bright and clear
The best friend I could ever plan

Bridge

My best friend, a love so true
I know I'll see your face again
My heart forever calls for you
I love you, Boone, beyond all pain

Instrumental - soft acoustic guitar, cello

Final Chorus

Oh, Boone, my heart still feels you near
Fifteen years, a precious span
You chased away my every fear
My loyal, loving, faithful man
Through every season, bright and clear
The best friend I could ever plan

Outro

Now no more pain, you're free to roam
Young again, by the clear lake's tide
Swimming free, you've found your home
Forever loved, deep in my pride

Outro - piano fade

Forever in our hearts
