
DJ's Open Road

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

There's a rhythm in my memory, a sweet and gentle sound
Of a chocolate lab who knew my heart, the best dog I ever found
She'd talk to me in her own way, a language understood
With a wagging tail and shining eyes, she'd say, "Let's run, we should!"

Chorus

Oh, DJ, my sweet companion, my co-pilot and my guide
For twelve of the best years of my life, you were right here by my side
Now the road goes on forever, and your spirit's running free
My dear DJ, you'll always be a part of me.

Verse 2

Through lonely nights beneath the stars, in that big old truck we'd sit
Watching movies on the screen, a perfect, cozy fit
You'd curl up close, a trusted friend, no matter where we'd roam
Making every long haul feel, a little more like home.

Chorus

Oh, DJ, my sweet companion, my co-pilot and my guide
For twelve of the best years of my life, you were right here by my side
Now the road goes on forever, and your spirit's running free
My dear DJ, you'll always be a part of me.

Verse 3

You charmed the hearts of everyone, no matter where we'd land
From a trucker's stop to open road, a friend in every hand
Once at a mine, the foreman' smiled, he knew your gentle grace
He shut the whole darn operation down, to give you ample space.

Bridge

Now I whisper to the quiet air, a message just for you

DJ's Open Road (continued)

Go get it, girl, it's all yours now, all the joy you're running to
Enjoy the lakes and endless ponds, then curl up by the fire's glow
My sweet DJ, where your spirit flies, I surely know.

Harmonica Solo

Final Chorus

Oh, DJ, my sweet companion, my co-pilot and my guide
For twelve of the best years of my life, you were right here by my side
Now the road goes on forever, and your spirit's running free
My dear DJ, you'll always be a part of me.

Outro - guitar fade

I see you swimming in the pond, with your best friend Diesel there
Free and joyful, chasing sunbeams, without a single care.
Just peace and light, my good old girl, a love that will not fade.

Forever in our hearts
