Verse 1

From the moment you walked through the door
A warmth we had never known before
A loving presence filled every space
A German Shepherd's gentle grace
Your watchful eyes, your faithful heart
Right from the very start
You greeted each day with a happy sigh
Our beautiful girl, beneath the sky

Chorus

Isabella, our joy and our light
Twelve years, almost thirteen, shining bright
You taught us to love, to play, to be free
A gift from above, for all the world to see
Isabella, our sweet, precious friend
Our love for you will never end

Verse 2

The sun would set, the day would slow
For evening walks, we loved to go
Your happy pace, a joyful stride
Always right there by our side
Through quiet streets and fields of green
The best companion we had ever seen
A gentle nudge, a knowing glance

Isabella's Joyful Spirit (continued)

A truly beautiful, treasured dance

Chorus

Isabella, our joy and our light
Twelve years, almost thirteen, shining bright
You taught us to love, to play, to be free
A gift from above, for all the world to see
Isabella, our sweet, precious friend
Our love for you will never end

Verse 3

Her happy paw, a gentle tap,
Content to rest right on our lap.
Then up and ready, full of grace,
A happy smile upon her face.
She made each moment feel brand new,
In everything she loved to do.
With every wag and joyful sound,
The purest happiness we found.

Chorus

Isabella, our joy and our light
Twelve years, almost thirteen, shining bright
You taught us to love, to play, to be free
A gift from above, for all the world to see
Isabella, our sweet, precious friend
Our love for you will never end

Now softly whispered, a truth so clear
We love you so much, our dearest dear
You will always be our girl, forever true
Our hearts remember every moment with you
