Gia's Midnight Star

A Tribute Song

Intro - acoustic guitar, harmonica

Verse 1

The first time that I saw your face,
A curious spirit, full of grace.
A pitbull heart, so full of glee,
My cuddle bug, you clung to me.
My pookie bear, my velcro friend,
A bond like ours could never end.
You were my soul dog, true and deep,
My dearest secret, I will keep.

Chorus

Oh, Gia, my sweet Gia, a light in the dark,
For four precious years, you left your paw print and mark.
My GG Grace, my love, my truest friend,
A bond like ours will never truly end.

Verse 2

When the world slept, our time would start,
Cuddles and movies, close to my heart.
Treats we would share, just you and I,
Beneath the quiet, starlit sky.
Or car rides took us far and wide,
Errand adventures by my side.
Every new scent, a thrill to chase,
A happy smile upon your face.

Chorus

Oh, Gia, my sweet Gia, a light in the dark,
For four precious years, you left your paw print and mark.
My GG Grace, my love, my truest friend,
A bond like ours will never truly end.

Verse 3

Gia's Midnight Star (continued)

You taught me love, unconditional,
A saving Grace, transformational.
My little heartbeat, soft and true,
No judgment lived inside of you.
I miss your zoomies, on the floor,
And tail wags, like no one before.
This king-size bed, it feels so bare,
No gentle snores fill up the air.

Bridge

Fly baby girl, fly, you are free now, no more pain,
Eat all the sardines, lick clean pup cups in the rain.
I will come find you, on those trails we'll roam,
You'll introduce new friends, when I finally come home.

Guitar Solo - acoustic guitar

Final Chorus

Oh, Gia, my sweet Gia, a light in the dark,
For four precious years, you left your paw print and mark.
My GG Grace, my love, my truest friend,
A bond like ours will never truly end.

Outro

Now you're wagging your tail, free from every care,
Sniffing new scents, in the fresh, clean air.
Greeting all with a smile, running wild and pain-free,
Waiting patiently, my pookie bear, for me.

Outro - harmonica fade

Forever in our hearts
