Beacon's Bright Spirit

A Tribute Song

Intro - ukulele, acoustic guitar

Verse 1

A friend once brought you, small and white
A schnauzer full of pure delight
Your energy, a joyful bark
Illuminated every dark
You showed me love, so strong and true
A constant friend, forever new
Though snacks you snatched, a playful thief
You were my comfort, my relief

Chorus

Oh, Beacon, my bright and shining star
Thirteen and a half years, no matter how far
Your spirit dances, wild and free
A part of everything I see
Beacon, my love, you lit the way
Shining brighter every day

Verse 2

I pictured you right by the door
Always waiting, wanting more
A warm embrace, a happy sigh
As we cuddled close, beneath the sky
When I was sick or feeling low
Your gentle presence made me glow
My faithful shadow, always near
Chasing away every fear

Chorus

Oh, Beacon, my bright and shining star
Thirteen and a half years, no matter how far
Your spirit dances, wild and free

Beacon's Bright Spirit (continued)

A part of everything I see
Beacon, my love, you lit the way
Shining brighter every day

Verse 3

Through changing seasons, passing years
You calmed my heart, erased my fears
A steady paw, a loving gaze
Through sunny days and misty haze
No matter what the world would bring
Your loyal heart made my soul sing
My truest friend, steadfast and kind
A precious joy I'll always find

Bridge

I love you more than life itself, my dear
And wish that I could join you right here
Until that day, my heart will keep
The promises our souls will leap

Ukulele Solo

Final Chorus

Oh, Beacon, my bright and shining star
Thirteen and a half years, no matter how far
Your spirit dances, wild and free
A part of everything I see
Beacon, my love, you lit the way
Shining brighter every day

Outro - acoustic guitar fade

Now you are running, light and bold
With Mom in heaven, stories told
Enjoying chocolate, sweet delight
Shining on, a constant light.

Forever in our hearts
