Molly Ann's Gentle Prance

A Tribute Song

Intro

Acoustic guitar, ukulele

Verse 1

A tiny package, perfection true
With little pig tails, a sweet debut
Your broken tail made you unique, my dear
Chihuahua spirit, chasing every fear
You'd settle nightly, on my left side, so small
Snuggled close, answering love's soft call

Chorus

Oh, Molly Ann, my heart's soft glow
Ten years of love, watching you grow
You taught me joy in every little stride
My prancing angel, forever by my side

Verse 2

Each evening homeward, my heart would leap
To watch you prance, secrets you'd keep
You'd turn your body, a loving, sweet cue
So I could pick you up, my love for you grew
Morning cuddles and kisses, a perfect start
You truly held the key to my whole heart

Chorus

Oh, Molly Ann, my heart's soft glow
Ten years of love, watching you grow
You taught me joy in every little stride
My prancing angel, forever by my side

Verse 3

A cold Sunday night, a posting I'd seen
You had to be mine, my sweet little queen

Molly Ann's Gentle Prance (continued)

Your big brown eyes spoke, where words couldn't reach
With sweet little kisses, your silent soft speech
My absolute soul girl, I miss you each day
The tears for you flow, they just won't go away

Bridge

I miss you so much, my prancing angel princess bright
There'll never be a puppy girl like you, day or night
You, my sweet little girl, were my absolute heart and soul, it's true
I miss you more than anyone, or even you, could ever imagine, I do

Instrumental

Acoustic guitar, harmonica

Final Chorus

Oh, Molly Ann, my heart's soft glow
Ten years of love, watching you grow
You taught me joy in every little stride
My prancing angel, forever by my side

Outro

Now at the bridge, in a garden so grand
You're caring for others, with a gentle paw and hand
Watching over sweet babies, playing free and light
Waiting for me, bathed in the rainbow's bright
Running gently, in eternal sun, so warm and deep
Molly Ann, my love, in my heart you sleep
Acoustic guitar fade

Forever in our hearts
